Get on board and help a good cause...

www.pulsar-racing.com

Welcome to the team.

The Round Britain Offshore Powerboat Race has been classed officially as “The Greatest Offshore Powerboat Race in the World”.

This Marathon Race has been resurrected again for the first time in 25 years and will take place from the 21st to the 30th of June 2008.

There will be over 50 boats competing for honours across 5 different classes ranging from International P1 Powerboats at the top end to the Classic Powerboats of old that are still brave enough to take part.

It is not often an opportunity comes along to take part in an historic event such as this. This is a race that will challenge all the competitors, and will test the mettle of all concerned. It will combine determination, endurance, guts, humour and of course lady luck and will remind all concerned how fortunate they are to be able to take part.

Team Pulsar Racing will race with 2 boats in this 1600 mile marathon. We intend to compete at the highest level in our class and complete the race safely and successfully.

Our single goal will be to raise money for those less fortunate through charitable donations from our Friends, Colleagues and Customers. We have nominated 5 different charities in no particular order and will donate to each one equitably.

We aim to raise a substantial sum for charity and have set our financial goals high. We need your support and consideration during this campaign. We are aware that there are always constant demands for charitable donations in business but we feel that together with Team Pulsar we can make a difference through our campaign.

All expenses for the Race and activities surrounding them have been met by our Corporate Sponsors and Friends of Team Pulsar Racing. 100% of all monies collected on behalf of our chosen charities will go directly into the Charities Collection Account and will be to the benefit of the nominated charities only.

We are looking forward to the challenge that this event brings and to receiving your support as friends of Pulsar direct and Team Pulsar Racing.

Thank you on behalf of Team Pulsar.

Justin Mc Inerney.
Chief Executive.
Pulsar Direct UK & Ireland.

Newcastle to Lowestoft. 205 Miles.

Day 10: Monday 30th June.

Lowestoft to Portsmouth. 190 Miles.

GRACE NOLAN FOUNDATION

The Grace Nolan Foundation is a non profit organisation and registered charity formed by Michael and June Nolan in November 1999, and was inspired by the short but ebullient life of their daughter Grace, who died, aged 9, from Hereditary Hemorrhagic Telangiectasia (HHT).

Our Goals

1. To establish & fund The National HHT Screening and Treatment Centre in Ireland with the assistance of the said medical personnel and for the common good of the Irish public, and to fund a Patient Co-Ordinator and equipment for this centre on a continual basis (opened January 2003 at the University Mercy Hospital Cork).
2. To organise and market various means of fundraising to provide the capital required to fund the intentions of the foundation.
3. To contribute to the HHT Foundation International, Inc; to assist the global efforts of selected research facilities in determining the causes of HHT and to assist in the furthering genetic research towards a clinical DNA Blood Test and an eventual cure.

Making a difference is easy...

Holistic Massage Service for oncology and bone marrow transplant patients at the Bristol Royal Hospital for Children (BCH)

On the Bone Marrow Transplant Unit at the Bristol Royal Hospital for Children, there has been a Holistic Massage service for the patients, for almost six years. More recently the service has expanded to the oncology wards at the hospital. In 2002 some enthusiastic nurses, who are also massage therapists set up the service and it has proved very popular with the patients. At present the service is provided for fifteen hours a week.

It gives patients something pleasant, soothing and relaxing to look forward to and can help to improve their quality of life. The patients vary in age from babies to teenagers on the oncology wards and from babies to adults on the Bone Marrow Transplant Unit. www.aboveandbeyond.org.uk

In April 1994, the Swiss Theodora Foundation introduced two clown doctors to Great Ormond Street Hospital, where they visited two days a week.

By 1995 they had worked with 4,000 children and in 1996, when the clown doctors also started at Guy's & St Thomas' Hospitals, the UK charity, The odora Children's Trust was set up to further expand this work. This programme was the first of its kind to be introduced to the UK, and is still the only such programme operating in England and Wales. Now, with a team of 13 trained Theodora clown doctors, we are visiting more than 28,000 children and their families every year. www.theodora.org.uk

Get Onboard...See how you can help.

The Army Benevolent Fund is the Army's National Charity. Since the end of the Second World War the Fund has given financial support and practical advice to soldiers, former soldiers and their families in times of need.

Around half of the money that the charity raises each year is given directly to individuals in need. The need can range from an electric wheelchair for a soldier's disabled son or a stair lift for an injured former soldier to care home fees for a Second World War veteran or a much needed holiday for a war widow and her young children.

Dependent on voluntary donations, the Fund must currently raise around £5.5 million each year to continue its vital work with members of the Army Family. The need shows no sign of abating, and with an exponential growth in cases expected the ABF's need for public financial support is greater than ever. www.armybenfund.org

Breast Cancer Unit at the South Infirmary-Victoria University Hospital

The Breast Cancer Unit at the South Infirmary-Victoria University Hospital is the second largest unit in the Republic of Ireland. Each year over 5,000 women are seen at this unit, and over 200 breast cancers are diagnosed. The unit has developed over the past 25 years, a level of expertise and patient care that puts it among the top Mammography Units in the country.

In December 2007 a new Breast Screening Unit was opened at the hospital. This unit will provide a breast screening service for the whole Southern Region and is a major addition to our current breast care service.

We are proud of the breast care service that we provide, and we look forward to playing a pivotal role in the future development of this service in the region.

Get Onboard and join our crew...

"I'm onboard so sign me up.

I would like to support Team Pulsar Racing and become an associate Crew member. I would like to make a charitable donation to the Team Pulsar Racing 2008 fundraising campaign and understand that 100% of all monies donated to the fund will go to the nominated charities on an equitable basis.
